

## **Three Year Old Newsletter**

**April 2019**

This month our letters are W and X. Please bring letter bags each Friday for the letter of the week. This reinforces what the children are learning. We will also be talking about farms and gardening this month. We will plant grass seeds to watch them grow!

April 8<sup>th</sup>-12<sup>th</sup> is week of the Young Child. This is a special week every year when we focus on the importance of the early years, the needs of young children and their families, and to recognize the programs and services that support them. We will have center-wide activities and special events all week. Announcements will be made the week before.

Check your child's cubby daily for incident reports, invoices, parent grams and accidents (soiled clothing) and please restock. We ask that you provide wipes if your child is still needing assistance with toileting. We do realize that this is a learning process, and we can help them, but will need the necessary supplies.

Thank you to all the parents that continue to send in snack money. We appreciate it. The kids really need that extra boost of nutrition to get them through until lunch.

We welcome Sloane to our class from the two's. We look forward to the next year of fun with her. We have to say so long to Lydia as she moves to the Fours.

Thank you,

Mrs. Bria

Ms. Sue

Ms. Kayla
