

SCHOOL AGE NEWSLETTER OCTOBER 2019

We are officially into fall now. Please make sure your child has proper clothing, jackets, and shoes. We will go outside as often as possible.

Our schedule for after school will stay the same. The kids will get off the bus around 3:05 pm, have snack, do homework, then centers/outside time. If your child will not be on the bus please let us know. This will help keep us from worrying about them not being here. If your child is doing tutoring please let us know so that we know what days so we do not worry about where they are on those days. If you do not want your child to do homework here then we will not make them but we will be here for those that do it here to help them if needed. I will not give them the answers but we will work together to get the correct answers.

We will be carving a couple of pumpkins. They will help pick out faces and I will carve them. The kids will not be using the knives I will do it for them. We will then make pumpkin seeds and they can take some home to share with family. On Halloween if you would like we can help them get into their costumes. If they wear their costume to school and take it off here we will help them get it back on.

Dates to remember: October

2nd Early Out Public School
